

App installation

- 1 Download the app "Voxbi" from the Google Play Store
- 2 Enter your mobile phone number
- 3 Contact your local administrator or support@mixvoip.com to configure the app and provide the following information:
 - your mobile phone number
 - your extension number
 - the desired ring delay option (between your desk phone and mobile)

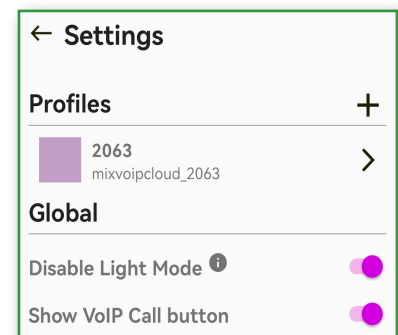

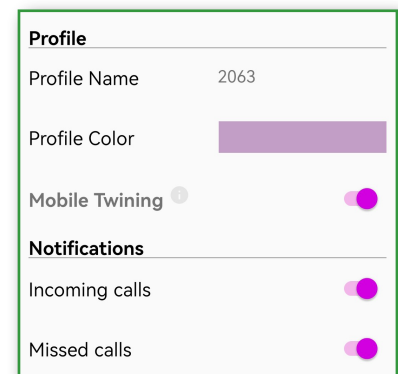

Simultaneously (recommended)
On logout
After 5/8/10/15/18...60 secs

App overview

- 1 **Profiles**
Select the profile you would like to call with via the dropdown menu or the settings (s. 3).
- 2 **DND**
Enable DND (Do Not Disturb): No desk/mobile phone will ring. The weekend button!
- 3 **Settings**
By clicking on your profile, you get to the profile settings. Enable or disable the VoIP Call button.
- 4 **Status overview**
Get an overview of your colleagues' statuses and see who is free to take a call.
- 5 **Contacts**
Your mobile, business, and favorite contacts.
- 6 **Call history**
- 7 **Status changer**
- 8 **Keypad**

How to use it

To **place a call**, using your business landline number, open the Voxbi application and dial as you normally would.

Note: it may take a few minutes to be active after configuration

Note: For outgoing calls, the user will see Mixvoip's dial-in number on the screen. This does not affect the dialed target number, the desired destination will still be called with the selected profile.

To **transfer a call** to a colleague: press # + his extension n°, present the call, then hang-up.

If your colleague is unavailable, return to the caller by pressing the * key

To **record a call** during a conversation, **press 99**. You will receive the file by email.

This **option** must be activated by Mixvoip. To do so, please send an email at support@mixvoip.com
